Help is here. With DNA JumpStart™ for Google Home

With DNA's JumpStart™, we'll set-up and sync Google Home with your C-BUS or Clipsal interface devices and entertainment systems for a fast and stress-free install. Control your DNA Smart Home with just your voice: get answers quickly, take charge of your day, and enjoy your entertainment. It's simply magic. Contact DNA today.

OK GOOGLE, HOW DO I SET YOU UP?

Setting up Google Home to talk with your Wi-Fi network, control interface, and home entertainment devices can be daunting. But don't worry. DNA will save you scratching your head and eliminate the time and stress of trouble-shooting.

We'll jump-start Google Home by acquiring a Smart Voice license, configuring your network details, and setting up all of your voice commands.

Before you know it, you'll be controlling your home simply by speaking what's on your mind. Enter the futuristic world of digital personal assistants with Google Home + DNA Jumpstart™. Now you're talking.

OK GOOGLE, WHAT'S MY FIRST EVENT TOMORROW MORNING?

Have your own personal assistant on-hand and get help with your schedule, appointments, news and more whenever Google Home recognises your voice.

OK GOOGLE, TURN OFF THE LIGHTS

Sync your Smart Home with Google Home and you'll be able to control your lights and much much more simply by saying it.

OK GOOGLE, PLAY AC/DC ON SPOTIFY

When paired with Chromecast, you can stream your favourite shows, films and music on your TV or speakers: hands-free.

Google Home and
DNA JumpStart™
from \$1199.00
