SITE PROTECTION AND PEACE OF MIND: HIRE FROM \$99 A WEEK

- 🏠 Protect your site 24-7 from thieves
- 📱 Arm and disarm system remotely
- 📅 Keep projects running on-track
- 💰 Reduce insurance premiums

Protect your build project: Hire a DNA GuardDog™

With crime on the rise, there's more at stake than just asset loss with an unsecured site. From project delays and additional labour costs to insurance premium blow-outs, a theft prevention strategy is no longer a nice-to-have but a necessity. Enter DNA GuardDog™: a 24-7 wireless monitored alarm system for ultimate peace-of-mind.

COMPLETE SYSTEM. COMPLETE PROTECTION.

Perfect for foremans, project managers, site managers or property owners, the DNA GuardDog™ system is a cost-effective way to secure and monitor your build-site. When you hire a DNA GuardDog™, you receive 4 x PIR Sensors, Keypad, Wireless Screamer, Wireless siren/strobe and monitoring to a patrol company / police department.

ALARM MONITORING. NOWHERE TO HIDE.

You can't be everywhere at once. But with a DNA GuardDog™ system, you have extra sets of eyes to guard your sites when you're not there. With alarm monitoring, patrol deployments, and round the clock notifications, you'll outsmart the criminals and send them scrambling to find a softer target.

PROTECT A LITTLE. OR A LOT.

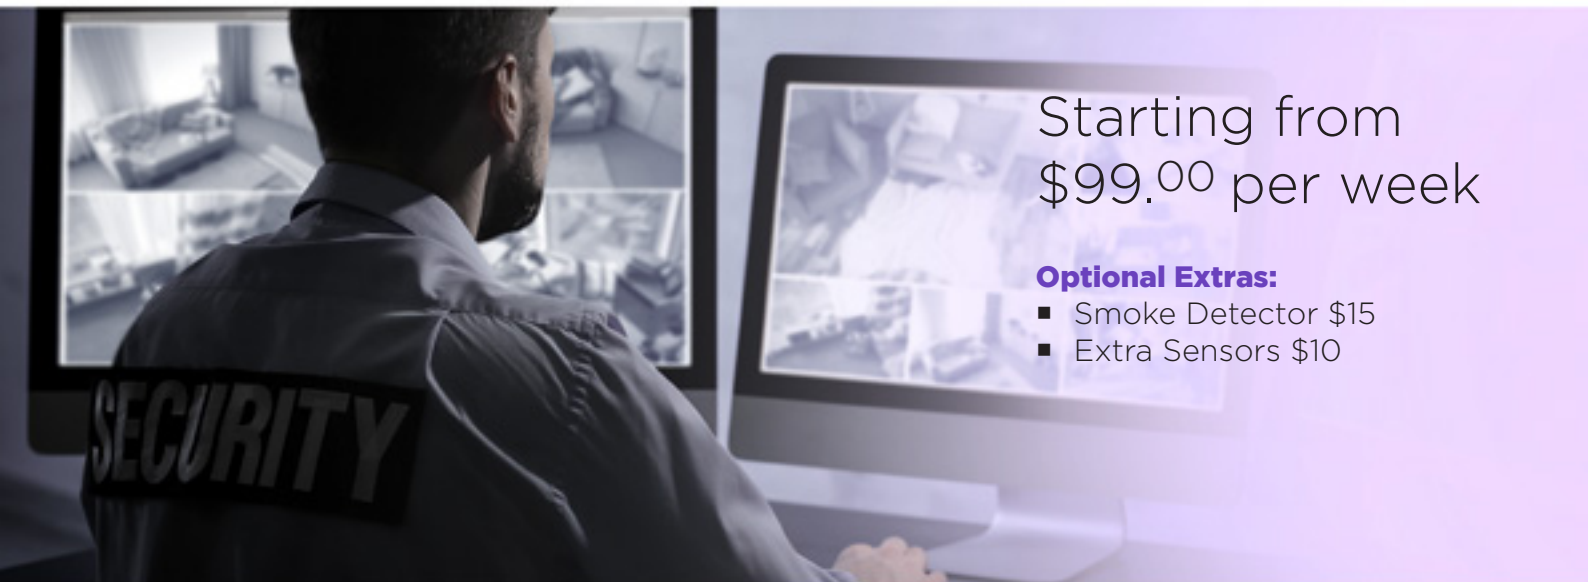

With DNA GuardDog™ you can protect a little or a lot. Secure your entire project or section off an area that requires special protection — the choice is yours.

REMOTE CONTROL. ALARMINGLY SIMPLE.

DNA GuardDog™ was designed with simplicity in mind. A simple keypad system with arming/disarming and KeyFob capabilities gives site managers total control to easily open and shut job sites.

SECURITY SPECIALISTS. ON CALL.

DNA deliver, install and test the DNA GuardDog™ system, and we're able to resolve any security or technical issues — not that you're likely to ever need us. For a complete turn-key security solution for your build site, contact DNA's specialists today.
